Featured Products

Edlund ARC! Slicer

There are lots of manual slicers that will slice hard products like onions & potatoes, but they don't do a great job on soft products like ripe tomatoes. The ARC can slide through an onion with ease, and slice a very ripe tomato even better! Exclusive design, you never have to place the product directly on the blades. The

unique pusher/hopper allows safe & perfect positioning of the product to be sliced, as well as smaller soft products like strawberries for faster bulk slicing. Quick change pusher & blade assembly with wash guard ensures safe handling. All s/s construction. Accepts full and half size pans up to 4" depth.
